

RING SIZE GUIDE

Before using the ruler to determine your fit, ensure this guide is printed on US Letter size paper (8.5" x 11") and scaled to 100%. To verify the accuracy of your printout, place a credit card on the line below. If the credit card matches the length of the line, the scale is correct.

MEASURE BY COMPARING WITH YOUR CURRENT RING

1. Choose a ring that fits the finger where you'll wear your Golden Vows & Co. ring.
2. Align your ring with the circle below that best matches its size. The inner edge of your ring should align with the outer edge of the circle. This number is the inside circumference of your ring. If the ring is a **comfort fit** design, match circles to the contoured edge of the inner surface of the ring.
3. If your ring falls between two sizes, we recommend selecting the larger size.

MEASURE BY MATCHING YOUR CURRENT RING

Cut carefully along the outline of the sizer. Create a small slit along the line at the left end of the sizer.

Wrap the sizer around the intended finger, ensuring the numbers face outward.

Slide the sizer to the widest part of the finger and pull it tightly. The sizer should fit snugly to ensure an accurate size.

The number that aligns with the slit indicates the ring size for that finger.

This ring sizer uses US sizing. To find equivalent sizes for other countries, please refer to the chart on the next page.
